

DROUGHT PREPAREDNESS DAY

UNCCD COP14 | 11 SEPTEMBER 2019 | RIO PAVILION, MET-11

The fourteenth session of the Conference of Parties to the UN Convention to Combat Desertification (UNCCD COP 14) will be held from 2 to 13 September 2019 at the India Expo Mart Ltd., Greater Noida, India. On this occasion, an entire day will be dedicated to the theme of Drought Preparedness on 11 September.

The Drought Preparedness Day will be an occasion to present and discuss the success and challenges of the current tools, methodologies and policies supporting drought preparedness. It will showcase the achievements of the UNCCD Drought Initiative, as well as the important partnerships and frameworks such as the Global Framework on Water Scarcity in Agriculture (WASAG), the Integrated Drought Management Programme (IDMP) and the UN-Water. The event delivers a special call on the importance of gender-responsive drought impact mitigation measures, and aligns itself with the UNCCD Gender Action Plan, by highlighting the importance of mainstreaming the gender dimension into all activities and policies on drought preparedness to increase their effectiveness.

Specific Objectives:

- To highlight examples and the role of integrated drought management approaches in mitigating adverse impacts of droughts;
- To strengthen multi-stakeholder coordination including UN agencies, academia, government actors, civil society and NGOs to implement integrated drought management plans;
- To provide evidence and show case examples on national drought policies based on the principles of risk reduction, with a highlight on gender equality; and
- To deliver key messages to the UNCCD COP14 on the above.

Expected outcomes

- Synergies and cooperation strengthened among the participants including Countries, the Drought Initiative, IDMP and WASAG partners.
- Key messages identified and delivered to UNCCD COP14 on the importance of developing national drought plans and implementing integrated drought management.
